WORK EXPERIENCE

RoseIndi   (November 2015 - Present)
Shop Owner

I currently own and run a FMCG store in the heart of Abuja, while I teach my self how to Code and build websites

Hotels.ng   (May 2020 - September 2020)
Internship

This was a rigorous remote internship organised by Hotels.ng which many thousands of beginner Devs and Designers Participate in order to make finalists of which I learnt a lot.

Mtn-Diamond-Yhello   (October 2014 - December 2014)
Sale Rep

This was a contract role that involved the registering of new users to the MTN-Diamond-Yhello Accounts, this lasted for about a month after I graduated from the University.

Sysdatech Nig Ltd   (February 2012 - January 2014)
Computer Teacher

I taught Clients how to effectively utilize the Computer

EDUCATION

Open Source Society University   (January 2021 - Present)
Bachelor's Degree Computer Science & Engineering

The OSSU curriculum is a complete education in computer science using online materials. It's not merely for career training or professional development. It's for those who want a proper, well-rounded grounding in concepts fundamental to all computing disciplines, and for those who have the discipline, will, and (most importantly!) good habits to obtain this education largely on their own, but with support from a worldwide community of fellow learners.

FreeCodeCamp.org   (January 2020 - July 2020)
Responsive Web Design Frontend Development

OpenClassrooms   (October 2019 - December 2019)
write JavaScript for the Web Frontend Development

This was a program organised by the Facebook developer circle to train individuals on how to code
